LO: To consider how the online world can influence and put pressure on us. To consider how we can respond to these pressures.

I feel pressure to get more likes on social media.

Don't worry, you should never let likes affect you. You shouldn't do things that are silly just to get likes. Only do things that you enjoy doing and don't let people tell what to do.

There are a lot of things that you could do, you could: use social media less; delete the app; and tell an adult or a friend. Likes never matter at all, this doesn't show how popular you are or how much people care about you. Great! Nice complex list 😊

I feel pressure to filter my images.

Again, don't worry, you are already handsome. No one can pressure you to do something to your images. Don't be ashamed because: of your colour; how you look; and when you age. Do not make people rule your life. If people tell you that you're ugly or don't listen to them. Listen to your heart, not what

people think of you. WA Super
