

Reception Holiday Project

Spring half-term 2019

'Under the Sea' is the title of our new topic for after half term. Reception will be learning all about what lives in and around the sea. We would like you to build a boat using materials you find at home. We will test these boats in the water at school to see if they float.

Tell us about the materials you have chosen and why you think these are good materials for a boat?

For my boat I have used...

Please return your holiday project to your teacher on Monday 25th February
