3. Definition of Special Educational Needs
4. Identification of Special Educational Needs
5. Partnership with parents
6. Responsibilities of staff
7. Provision and support for pupils with SEN
8. Pastoral Support Plans
9. Interventions to support teaching and learning
10. Adaptations to the learning environment
11. Access to extra-curricular activities
12. Partnership with parents
13. The Birmingham Local Offer
14. Information for parents
15. Admission arrangements for pupils with SEND

The SEND Policy and School Information for SEND has been compiled with reference to the following:

*Section 69(2) of the Children and Families Act 2014, which includes: the arrangements for the admission of disabled pupils

*The steps you have taken to prevent disabled pupils from being treated less favourably than other pupil

*The facilities you provide to help disabled pupils to access the school

*The accessibility plan you have prepared in compliance with paragraph 3 of schedule 10 to the Equality Act 2010.

*The Equality Act, 2010

*The Special Educational Needs and Disability Regulations, 2014

*The Special Educational Needs Code of Practice: 0-25, 2014

*The Birmingham Local Offer (www.mycareinbirmingham.org.uk)

COVID 19

For further reference regarding temporary changes to SEND legislation during the period of COVID 19 please refer to Annex B:

<https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools#B>

1. Our philosophy:

'Enjoy, learn, achieve'

At Grove we have a 'whole school' approach to Special Educational Needs and Disabilities (SEND)

We believe:

1. All teachers are teachers of pupils with SEND
2. All children with SEND deserve a level of resourcing appropriate to meet their needs
3. All children are entitled to a broad and balanced curriculum, which is relevant to their experiences and needs and demonstrates progress and coherence
4. All children have the capacity to learn and make progress.
5. We will ensure that every child is treated as special and unique, feels secure and is kept safe regardless of their age, gender, ethnicity attainment or background.

2. The Special Educational Needs team at Grove

Miss C Dowell – SENCO

Miss Dowell can be contacted by telephoning school on 0121 464 4669 or by email c.dowell@grove.bham.sch.uk

Ms J Baker – DHT

Ms Baker can be contacted by telephoning school on 0121 464 4669 or by email j.baker@grove.bham.sch.uk

If parents wish to discuss their child's needs they should arrange to meet with the child's class teacher in the first instance.

The school has a nominated governor for SEND – Mr Stephen Theaker

If a parent has a concern they should refer to the school website for details of the Complaints and Parent Partnership Policy, www.grove.bham.sch.uk/parents/school_polices/ complaints and parental partnership policy.

3. Definition of SEN:

The 2014 Code of Practice says that:

A person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her. At compulsory school age this means he or she has a significantly greater difficulty in learning than the majority of others of the same age, or, has a disability which prevents or hinders him or her from making use of the facilities of a kind generally provided for others of the same age in mainstream schools. Taken from 2014 SEN Code of Practice: 0-25 years – introduction xiii and xiv.

There are four broad categories of SEN:

- a. Communication and interaction
- b. Cognition and learning
- c. Social, emotional and mental health
- d. Physical and sensory

Cognition and learning – How a child thinks, learns and understands the world

Communication and interaction – How a child talks to, listens, responds, plays and learns with other children and adults

Social, emotional and mental health difficulties – How a child shows their feelings, negotiates and solves problems in different situations and handles changes of routine

Sensory and/or physical needs – How a child responds to their environment and learning using their senses and any diagnosed medical issues

4. Identification of Special Educational Needs

We consider a child to have a Special Educational Need and will place them on our Special Educational Needs support register if:

- A child is assessed as requiring universal support, targeted support or specialist support
- A child has significantly greater difficulty in learning than their peers
- A child is consistently making less than expected progress, given their age and individual circumstances
- A child has an emotional, social or behavioural difficulty that prevents him / her from fully accessing the curriculum
- A child has a physical or sensory difficulty
- A child has a medical condition that has a significant impact on their ability to access the curriculum, attend school or may impair their development.

Universal Support

Universal support involves quality first teaching within an inclusive environment. Staff make reasonable adjustments to teaching and learning in order to support pupils with special educational needs within the classroom environment.

Targeted Support

Targeted support is support that is additional to, or different from, support accessed by the majority of pupils in school. Targeted support enables staff to address specific needs of the pupil through one to one or small group intervention sessions. These sessions often take place outside the classroom.

Specialist Support

Specialist support refers to support which is highly personalised and requires individual assessments. A referral is made to specialists including health visitors, educational psychologists, speech and language therapists or specialist teachers. Typically, the support

will be in place long-term for pupils with complex needs. Pupils requiring specialist support may require specialist equipment to access their learning.

School based monitoring

The progress and attainment of every child is monitored every term through pupil progress meetings, through learning walks and lesson observations where the progress of pupils with SEND is a key line of enquiry and through conversations with pupils.

If a child, as recommended by the 2014 Code of Practice, is making less than expected progress, given their age and individual circumstances, they will be placed on the Special Educational Needs register and interventions and support put in place to support the child.

Less than expected progress can be defined as progress which:

- * Is significantly slower than that of their peers starting from the same baseline
- * Fails to match the child's previous rate of progress
- * Fails to close the attainment gap between the child and their peers

A child may also be identified as having additional needs when an outside agency or health professional informs us of a new diagnosis or a development in a child's condition where the child will need alternative provision, additional support or adaptations to the curriculum in order to access education at Grove Schools. School does not make medical diagnoses however; we can refer to agencies that will support with this process.

5. Partnership with Parents

Grove school recognises the key role parents play and the in-depth knowledge they have of their child. School staff will arrange to meet parents if they assess a child is experiencing difficulties. Progress and attainment are shared and discussed at Parental Consultations once a term.

Partnership with parents is supported through:

1. Parents consultation sessions every term
2. SEND review and target setting meetings every term
3. Annual review meetings for parents of children with an Education Health Care Plan/ Statement of Special Educational Need
4. Transition meetings (into Foundation Stage, Key Stage One and Two and into Key Stage 3)
5. Invites to engage in parent partnership courses and training
6. Stay and play sessions in Foundation Stage
7. Language workshops in Foundation Stage
8. Inspire workshops in nursery – year 6
9. Pupil centred reviews

Parents are encouraged to participate in the decision making processes and contribute to the assessment of their needs, the review and transition process.

6. Responsibilities of staff

Lead staff

Miss C Dowell - SENCO
Mrs E Gallagher –YGL for Nursery
Mrs C Willoughby – YGL for Reception
Mrs J Basnett – AHT for lower KS 2
Ms E Mills – DHT
Ms J Baker – DHT

Responsibilities include:

- Lead and manage the key priority area of SEND and pastoral care as agreed with the head teacher
- Deployment of staff for SEND
- Liaison with agencies for SEND
- Use assessment data to inform School Improvement Planning with regard to SEND
- Quality assure teaching and assessment of SEND pupils
- Analysis of data
- Ensure staff use SEND data effectively for planning, differentiation and intervention purposes
- Monitoring impact of intervention programmes
- Monitoring pupil progress on SEND
- Quality assure individual learning programmes
- Training for support and teaching staff
- Leads EHCP review meetings
- Leads Person Centred Review meetings
- Ensure appropriate access arrangements are made for internal assessments and examinations
- Lead the inclusion agenda with assistant head teachers and year group leaders, ensuring all staff have the skills and resources to support SEND pupils including those who are disadvantaged

Year Group Leader

- Quality assures the impact of curricular programmes and intervention programmes for SEND children
- Quality assures Provision Plans to ensure all pupils with SEND and those falling behind are identified for regular interventions, either group or 1:1
- Monitor and tracks progress of SEND children
- Provides ongoing support and training for staff in the year group
- Quality assures Individual Support Plans and reviews
- Contributes to annual review of Education Health Care Plans
- Carry out appropriate access arrangements for internal assessments and examinations
- Work collaboratively with other professional agencies to support the learning, pastoral and emotional needs of children.

Class Teachers/ Unqualified Teachers

- High quality planning, preparation, delivery and assessment of work of SEND children to include targeted intervention sessions
- Communicate pupil progress with pupils and parents
- Create Individual Support Plans and One Page Profiles
- Review Individual Support Plans
- Update Provision Plans termly based on formative and summative assessment
- Undertake and implement continued professional development with regard to SEND

Teaching Assistants/ Higher level Teaching Assistants

- Support the activities of individuals or groups within a class
- Contribute to Individual Education Plans
- Support pupil learning
- Contribute to the review of Provision Plans based on formative assessment
- Promote pupils' social and emotional development
- Contribute to the health and well being of pupils
- Support children with specific needs
- Observe and report on pupil progress
- Contribute to the planning and evaluation of learning activities
- Support the maintenance of pupils' safety and security

Lunchtime Supervisors

- Being aware of pupils on special or restricted diets for medical reasons from information provided at the school.
- Assisting pupils with cutting up food, pouring liquids etc. where necessary
- Encouraging social skills and good table manners, ensuring safety with knives and forks. Ensuring pupils tidy/clear up in a satisfactory manner
- Supervision and control of pupils in the playground and about other school premises
- Direction of pupils to the playground and supervision of their activities and behaviour, ensuring their safety and well being, providing emotional support where necessary
- To promote the agreed vision and aims of the school

7. Provision and support for pupils with SEND

Individual Support Plans

When a pupil is identified as having additional needs the class teacher and support staff will develop an Individual Support Plan. Children with cognition and learning difficulties, speech, communication and language difficulties, emotional, behavioural and mental health difficulties or physical difficulties have targets set which are used in lessons and intervention sessions. Targets set are selected to close gaps in skills and learning and support pupils making progress against their identified needs. A pupil and their parent has the opportunity to review progress against the support plan targets once a term. Parents and pupils are encouraged to make a comment about progress and sign the Individual Support Plan. If a parent does not attend a SEND review meeting teachers record the date and 'parent did not attend.'

Social, emotional and behavioural profiles and One Page Profiles.

Pupils who have a social, emotional or behavioural need will have an Emotional, Behavioural Profile completed by staff who work with them. This identifies types of behaviours and assists staff in developing a One Page Profile to support the pupil. A One Page Profile details a child likes and dislikes, what they find difficult, how best to support them and specific strategies in place. A One Page Profile is developed by school staff, parents are asked to contribute as appropriate.

At Grove the one page profile and individual support plan and review are contained within one A5 document. A copy of this document is held in the pupil's SEND file in the classroom. A copy is also on the school shared area. Parents are provided with a copy of this document each term.

Pupils have copies of their learning targets in class. These are referred to in short term planning, lessons and pupils self-assess against these targets. Marking of pupil work is used to review progress towards targets.

The Individual Support Plans for each child do not detail the how, when and who.

Special Educational Needs Support Provision plans

A class teacher develops and revises a Special Educational Needs Support Provision Plan each term with their year group leader based on formative and summative assessment and with advice and support from external agencies. A Special Educational Needs Support Provision Plan includes: the full name of the child; personal information including address and parental information; historical key facts; the pupil's current profile including current needs and what is important to the child; agencies involved with the child; areas of need identified on their CRISP; priority areas of need with strengths and skills and special educational needs for each priority area; long term and short term outcomes; and additional provision in place to support the child.

Medical Care Plans

Pupils with a medical need will have a care plan. For pupils who have a significant medical need these care plans will have been developed with the School Nurse service and/or other healthcare providers. School has a generic asthma care plan which has been agreed with the School Nurse team for asthma. Parents are invited, on an annual basis to update, with staff, these plans if the medical need differs. The school nurse visits school on a regular basis, dates can be found on the school website. Parents can telephone school to make an appointment to meet with the nurse.

Education, Health Care Plans

The Local Offer sets out services available for children and young people with special educational needs and abilities from birth to age 25 and their families. The majority of children and young people with SEND will have their support needs met through the Local Offer without the need for an EHC Plan.

However, for some children and young people, an Education, Health and Care Plan may be necessary.

Children who are diagnosed with disabilities who have an Education, Health and Care Plan (or are in the process of) and/or are in receipt of Disability Living Allowance, are likely to meet the criteria to be offered a fulltime place at Grove School.

A request for Education, Health and Care Assessment is made via a coordinated, family centred, multi-agency approach (key working). The family and professionals involved with the child or young person will be asked for information. A decision will be made by a group of people from education, health and social care about whether the child or young person is eligible for an EHC Plan and the sort of provision and resources that are likely to be required.

The EHC Plan will be reviewed at least annually to maintain its relevance to the child/young person's individual situation. In certain cases it may be reviewed more frequently, if required.

8. Pastoral Support Plans

What is a Pastoral Support Plan (PSP)?

A Pastoral Support Plan (PSP) is a school based programme which is meant to help a child to improve their social, emotional and behavioural skills. The PSP will identify precise and specific targets for the child to work towards and should include the child and parents in the drafting process.

When a PSP is thought to be required a PSP meeting should be held during the normal school day. The teachers and the child's parents will consider whether the child should be present for the whole meeting or only part of it. At the end of the meeting everyone should be clear about what needs to be done, by whom and by when.

PSPs are usually reviewed every 4 weeks and usually run for approximately 16 weeks. The period of time may be extended to support children further.

Who Needs a Pastoral Support Plan (PSP)?

A PSP may be necessary if a child's behaviour at school means that they have been permanently excluded or are "at risk" of permanent exclusion. "At risk" means that the child is not responding to the school's normal range of strategies and support and several short term exclusions may be indicative of this. A PSP will be needed in particular for those children whose behaviour is deteriorating rapidly.

What is the Purpose of a Pastoral Support Plan (PSP)?

The aim of a PSP is to promote the child's social inclusion and help reduce the possibility of the child's permanent exclusion. The PSP aims to involve the child in the challenge of improving their behaviour and social skills. As a result of a PSP, a child should be able to better manage their behaviour and/or improve their attendance at school.

9. Interventions to support teaching and learning

Pupils with SEND will be educated with their class. Within the school timetable a child or group of children may be taught in an alternative teaching space in school. Individual Support Plans are used in lessons to differentiate learning for SEND pupils. In addition to this school may use specific learning programmes to support pupils. These are some of the interventions that may be used with learners:

	Cognition and Learning
Nursery	<p><u>WELLCOM</u> WELLCOM is a speech and language toolkit for screening pupils in the Early Years. It enables staff to evaluate pupil's language and to identify any pupils with language delay. All pupils in Nursery are assessed on their speaking, listening and understanding against their correct age banding in the assessment pack during the Autumn Term. If a pupil is identified as amber or red on the assessment they will require intervention sessions. The assessment tool guides the adult to the correct starting point in the intervention programme for each pupil. The intervention sessions are delivered 1:1 or in small groups depending on the target the pupil is working on. Targets are linked to developing the pupils' conceptual vocabulary and word understanding. The beginning of the programme focusses on single word vocabulary and works up to speaking, listening and understanding using up to 3 words. During the intervention sessions the pupils take part in a range of practical activities and games to develop their vocabulary. Staff use the focus of the intervention sessions to lead their questioning throughout the day. Targets are displayed in the classroom to refer to throughout the day e.g. The target 'We are working on the preposition under' would be displayed in the classroom. Staff would then use this target and would ask pupils to put a toy under a box during continuous provision. All resources are stored in the WELLCOM bag. Pupils who are involved in the WELLCOM intervention sessions are reassessed termly.</p> <p><u>Colourful Semantics</u> Staff use agreed colour coded symbols and pictures to develop pupils' sentence structure and understanding of 'who, where, what, when and how' questions. Pupils in nursery focus on 'who, what and where' questions. The symbols are used along with props and resources during small group interventions. These question words are reinforced using the colour coded card symbols through story time, mat and chat sessions and throughout continuous provision.</p>

Reception**WELLCOM**

WELLCOM is a speech and language toolkit for screening pupils in the Early Years. It enables staff to evaluate pupil's language and to identify any pupils with language delay. All new to Grove pupils in Reception are assessed on their speaking, listening and understanding against their correct age banding in the assessment pack during the Autumn Term. If a pupil is identified as amber or red on the assessment they will require intervention sessions. The assessment tool guides the adult to the correct starting point in the intervention programme for each pupil. The intervention sessions are delivered 1:1 or in small groups depending on the target the pupil is working on. Targets are linked to developing the pupils' conceptual vocabulary and word understanding. The beginning of the programme focusses on single word vocabulary and works up to speaking, listening and understanding in full sentences. During the intervention sessions the pupils take part in a range of practical activities and games to develop their vocabulary. Staff use the focus of the intervention sessions to lead their questioning throughout the day. Targets are displayed in the classroom to refer to throughout the day e.g. The target 'We are working on the preposition under' would be displayed in the classroom. Staff would then use this target and would ask pupils to put a toy under a box during continuous provision. All resources are stored in the WELLCOM bag. Pupils who are involved in the WELLCOM intervention sessions are reassessed termly.

Precision teaching

Precision teaching in a daily 1:1 intervention which takes place for up to 10 minutes. It is used to develop grapheme and word recognition. Pupils are assessed prior to starting the programme using the phonic placement tests and high frequency word lists. Areas for development are identified and planned into these intervention sessions. The sessions comprise of a 5 minute teach which includes direct instruction and a variety of games to embed learning. This is followed by a one-minute probe to assess learning. The results are plotted on a chart with the pupil to show progress. The same probe is repeated until the aim rate achieved with a maximum of two errors on three consecutive occasions. Pupils take their key graphemes and words home to practise.

Colourful Semantics

Staff use agreed colour coded symbols and pictures to develop pupils' sentence structure and understanding of 'who, where, what, when and how' questions. Pupils in Reception focus on 'who, what and where' questions. The symbols are used along with props and resources during small group interventions. These question words are reinforced using the colour coded card symbols through story time, mat and chat sessions and throughout continuous provision.

Lovely Listeners

Lovely listeners is a small group attention and listening intervention programme which takes place once a week. Pupils are identified by West Midlands Speech and Language Team in conjunction with Year Group

	<p>Leaders. During the sessions staff work through four stages of development to support pupils with listening and attention. The focus of the sessions is to be able to sit on a chair for up to 15 minutes and complete a range of activities. The activities which are practical and engaging include singing, turn taking games, messy play and stimulating activities. Pupils take it in turns to take part in activities and are invited to do so by the lead teacher. Correct use of language is always modelled to pupils throughout the sessions to develop sentence structure.</p>
<p>Year 1</p>	<p><u>Colourful Semantics</u> Staff use agreed colour coded symbols and pictures to develop pupils' sentence structure and understanding of 'who, where, what, when and how' questions. Pupils in Year 1 focus on 'who, what, where and when' questions. The symbols are used along with props and resources during small group interventions to create sentences which are grammatically correct in their structure. Pupils record these sentences in their literacy books. These sessions take place once a week for up to 20 minutes. The question words and sentence structure are reinforced using the colour coded card symbols through story time and literacy sessions.</p> <p><u>Language for Thinking</u> Language for thinking is a small group speaking and listening intervention which takes place once a week for up to 30 minutes. During the sessions a picture is shared with the pupils and a story linked to the picture is read alongside this. The teacher asks questions to develop the pupils' understanding. The questions increase in complexity from Level A to Level C. Following the group discussion pupils complete a written activity to demonstrate their understanding. Some pupils may share this answer verbally which is then scribed by the teacher.</p> <p><u>Precision teaching</u> Precision teaching in a daily 1:1 intervention which takes place for up to 10 minutes. It is used to develop word recognition including reading and spelling and can also be used to support the recall of mathematical facts for example shape names and number facts. Pupils are assessed prior to starting the programme using the high frequency word lists and placement tests. Areas for development are identified and planned into these intervention sessions. The sessions comprise of a 5 minute teach which includes direct instruction and a variety of games to embed learning. This is followed by a one-minute probe to assess learning. The results are plotted on a chart with the pupil to show progress. The same probe is repeated until the aim rate achieved with a maximum of two errors on three consecutive occasions.</p>
<p>Year 2</p>	<p><u>Colourful Semantics</u> Staff use agreed colour coded symbols and pictures to develop pupils' sentence structure and understanding of 'who, where, what, when and how' questions. Pupils in Year 2 focus on 'who, what, where and when' questions. The symbols are used along with props and resources during small group interventions to create sentences which are grammatically correct in their structure. Pupils record these sentences in their literacy books. These sessions take place once a week for up to 20 minutes. The</p>

	<p>question words and sentence structure are reinforced using the colour coded card symbols through story time and literacy sessions.</p> <p><u>Language for Thinking</u> Language for thinking is a small group speaking and listening intervention which takes place once a week for up to 30 minutes. During the sessions a picture is shared with the pupils and a story linked to the picture is read alongside this. The teacher asks questions to develop the pupils' understanding. Pupils are assessed prior to starting the programme using the high frequency word lists and placement tests. Areas for development are identified and planned into these intervention sessions. The sessions comprise of a 5 minute teach which includes direct instruction and a variety of games to embed learning. This is followed by a one-minute probe to assess learning. The results are plotted on a chart with the pupil to show progress. The same probe is repeated until the aim rate achieved with a maximum of two errors on three consecutive occasions.</p>
<p>Year 3</p>	<p><u>Language for Thinking</u> Language for thinking is a small group speaking and listening intervention which takes place once a week for up to 30 minutes. During the sessions a picture is shared with the pupils and a story linked to the picture is read alongside this. The teacher asks questions to develop the pupils' understanding. The questions increase in complexity from Level A to Level C. Following the group discussion pupils complete a written activity to demonstrate their understanding.</p> <p><u>Colourful Semantics</u> Staff use agreed colour coded symbols and pictures to develop pupils' sentence structure and understanding of 'who, where, what, when and how' questions. Pupils in Year 3 focus on 'what and how' questions. The symbols are used along with props and resources during small group interventions to create sentences which are grammatically correct in their structure. Pupils record these sentences in their literacy books. These sessions take place once a week for up to 20 minutes. The question words and sentence structure are reinforced using the colour coded card symbols through literacy sessions.</p> <p><u>Phonics Champions</u> Phonics Champions is a small group intervention which takes place three times a week. Pupils who are new to English in KS2 or did not pass their phonics screening assessment at the end of Year 2 are included in this</p>

	<p>group. The pupils are grouped according to their phonics phase and sessions follow the four-part lesson structure. Staff use the Jolly Phonics scheme to support pupils with learning new sounds. In addition, Alien Adventure books are read with pupils during the sessions. These books are carefully matched to the phase and sounds the pupils are working on in each session.</p> <p><u>Precision teaching</u> Precision teaching in a daily 1:1 intervention which takes place for up to 10 minutes. It is used to develop word recognition including reading and spelling and can also be used to support the recall of mathematical facts for example shape names and number facts. Pupils are assessed prior to starting the programme using the high frequency word lists and placement tests. Areas for development are identified and planned into these intervention sessions. The sessions comprise of a 5 minute teach which includes direct instruction and a variety of games to embed learning. This is followed by a one-minute probe to assess learning. The results are plotted on a chart with the pupil to show progress. The same probe is repeated until the aim rate achieved with a maximum of two errors on three consecutive occasions.</p> <p><u>Reading Aloud</u> Reading Aloud is a small group intervention which takes place on a Thursday afternoon. The text which is used is the same as the one used in the following whole class Reading Explorer session. During the session the pupils listen to an audio reading of the text and discuss this with the teacher. Teachers then use the questions in the book provided to support the pupils with their understanding of the text and focus on retrieval questions. Pupils then complete the first part of the written activity from the book which is linked to the text they have heard. Following this, pupils listen to the audio recording a second time and then complete more advanced questions on the second part of the written activity. These often focus on inferences. Pupils then listen to the audio recording a third time and use this opportunity to discuss and check their answers with the adult.</p>
<p>Year 4</p>	<p><u>Phonics Champions</u> Phonics Champions is a small group intervention which takes place three times a week. Pupils who are new to English in KS2 or did not pass their phonics screening assessment at the end of Year 3 are included in this group. The pupils are grouped according to their phonics phase and sessions follow the four-part lesson structure. Staff use the Jolly Phonics scheme to support pupils with learning new sounds. In addition, Alien Adventure books are read with pupils during the sessions. These books are carefully matched to the phase and sounds the pupils are working on in each session.</p> <p><u>Precision teaching</u> Precision teaching in a daily 1:1 intervention which takes place for up to 10 minutes. The results are plotted on a chart with the pupil to show progress. The same probe is repeated until the aim rate achieved with a maximum of two errors on three consecutive occasions.</p> <p><u>Reading Aloud</u> Reading Aloud is a small group intervention which takes place on a Thursday afternoon. The text which is used is the same as the one used in the following whole class Reading Explorer session. During the session the pupils listen to an audio reading of the text and discuss this with the teacher. Teachers then use the questions in the book provided to support the pupils with their understanding of the text and focus on retrieval questions. Pupils then complete the first part of the written activity from the book which is linked to the text they have heard. Following this, pupils listen to the audio recording a second time and then complete more advanced questions on the second part of the written activity. These often focus on inferences. Pupils then listen to the audio recording a third time and use this opportunity to discuss and check their answers with the adult.</p> <p><u>Super Speakers</u> Super Speakers is a small group speaking and listening intervention programme which takes place weekly and lasts for up to 20 minutes. Pupils are identified by West Midlands Speech and Language Team in conjunction with Year Group Leaders. During the sessions staff use resources such as Language for Thinking and Chatterbox to provide the pupils with a stimulus to discuss as a group. Staff model correct use of language and support pupils with developing their spoken sentence structure. In addition to this staff use Word Magic Mats to develop pupils' vocabulary banks and retention of new vocabulary.</p> <p><u>Colourful Semantics</u> Staff use agreed colour coded symbols and pictures to develop pupils' sentence structure and understanding of 'who, where, what, when and how' questions. Pupils in Year 4 focus on 'how' questions. The symbols are used along with props and resources during small group intervention sessions. The question words and sentence structure are reinforced using the colour coded card symbols through literacy sessions.</p>
Year 5	<p><u>ZAP Spellings</u> ZAP Spellings is a 1:1 intervention which takes place three times a week. Zap Spellings is used to develop pupils' spelling of high frequency words. Pupils are assessed prior to starting the programme using the high frequency word lists and nine target spelling words are identified. Sessions last up to 15 minutes and comprise of a teaching session and a spelling assessment. During the teaching session direct instruction and spelling games are used to reinforce learning. The nine words are set out in a three by three grid. Each word must be spelt correctly five times before it</p>

is zapped from the spelling board. Once a word has been zapped from the spelling board it is no longer included in the direct teaching or session spelling assessment. When all words have been zapped from the board the pupil is tested on all nine words once more. If all nine words are spelt correctly one final time the whole board has been completed and the teacher will begin a new board with the pupil.

Super Speakers

Super Speakers is a small group speaking and listening intervention programme which takes place weekly and lasts for up to 20 minutes. Pupils are identified by West Midlands Speech and Language Team in conjunction with Year Group Leaders. During the sessions staff use resources such as Language for Thinking and Chatterbox to provide the pupils with a stimulus to discuss as a group. Staff model correct use of language and support pupils with developing their spoken sentence structure. In addition to this staff use Word Magic Mats to develop pupils' vocabulary banks and retention of new vocabulary.

Phonics Champions

Phonics champions is a small group intervention which takes place three times a week. Pupils who are new to English in KS2 or did not pass their phonics screening assessment at the end of Year 4 are included in this group. The pupils are grouped according to their phonics phase and sessions follow the four-part lesson structure. Staff use the Jolly Phonics scheme to support pupils with learning new sounds. In addition, Alien Adventure books are read with pupils during the sessions. These books are carefully matched to the phase and sounds the pupils are working on in each session.

Reading Aloud

Reading Aloud is a small group intervention which takes place on a Thursday afternoon. The text which is used is the same as the one used in the following whole class Reading Explorer session. During the session the pupils listen to an audio reading of the text and discuss this with the teacher. Teachers then use the questions in the book provided to support the pupils with their understanding of the text and focus on retrieval questions. Pupils then complete the first part of the written activity from the book which is linked to the text they have heard. Following this, pupils listen to the audio recording a second time and then complete more advanced questions on the second part of the written activity. These often focus on inferences. Pupils then listen to the audio recording a third time and use this opportunity to discuss and check their answers with the adult.

Precision teaching

Precision teaching is a daily 1:1 intervention which takes place for up to 10 minutes. It is used to develop word recognition including reading and spelling and can also be used to support the recall of mathematical facts for example shape names and number facts. Pupils are assessed prior to starting the programme using the high frequency word lists and placement tests. Areas for development are identified and planned into these

	<p>intervention sessions. The sessions comprise of a 5 minute teach which includes direct instruction and a variety of games to embed learning. This is followed by a one-minute probe to assess learning. The results are plotted on a chart with the pupil to show progress. The same probe is repeated until the aim rate achieved with a maximum of two errors on three consecutive occasions.</p>
<p>Year 6</p>	<p><u>Adventurers</u> Adventurers is a small group intervention which takes place daily for up to 1 hour. The sessions focus on acquiring mastery in the core mathematics and reading skills. During reading sessions the Navigator Max reading scheme is used to develop pupils' ability to read fluently, retell a story and really understand the events which take place. The teacher focuses on asking retrieval questions and the pupils are supported with answering these questions when they are presented in a variety of different ways. During maths sessions the learning focuses on developing the pupils' mastery of place value, addition, subtraction, multiplication and division. During the sessions staff use concrete resources and diagrams to support pupils with their mathematical understanding.</p> <p><u>ZAP Spellings</u> ZAP Spellings is a 1:1 intervention which takes place three times a week. Zap Spellings is used to develop pupils' spelling of high frequency words. Pupils are assessed prior to starting the programme using the high frequency word lists and nine target spelling words are identified. Sessions last up to 15 minutes and comprise of a teaching session and a spelling assessment. During the teaching session direct instruction and spelling games are used to reinforce learning. The nine words are set out in a three by three grid. Each word must be spelt correctly five times before it is zapped from the spelling board. Once a word has been zapped from the spelling board it is no longer included in the direct teaching or session spelling assessment. When all words have been zapped from the board the pupil is tested on all nine words once more. If all nine words are spelt correctly one final time the whole board has been completed and the teacher will begin a new board with the pupil.</p> <p><u>Super Speakers</u> Super Speakers is a small group speaking and listening intervention programme which takes place weekly and lasts for up to 20 minutes. Pupils are identified by West Midlands Speech and Language Team in conjunction with Year Group Leaders. During the sessions staff use resources such as Language for Thinking and Chatterbox to provide the pupils with a stimulus to discuss as a group. Staff model correct use of language and support pupils with developing their spoken sentence structure. In addition to this staff use Word Magic Mats to develop pupils' vocabulary banks and retention of new vocabulary.</p> <p><u>Phonics Champions</u> Phonics champions is a small group intervention which takes place three times a week. Pupils who are new to English in KS2 or did not pass their phonics screening assessment at the end of Year 5 are included in this</p>

group. The pupils are grouped according to their phonics phase and sessions follow the four-part lesson structure. Staff use the Jolly Phonics scheme to support pupils with learning new sounds. In addition, Alien Adventure books are read with pupils during the sessions. These books are carefully matched to the phase and sounds the pupils are working on in each session.

Reading Aloud

Reading Aloud is a small group intervention which takes place on a Thursday afternoon. The text which is used is the same as the one used in the following whole class Reading Explorer session. During the session the pupils listen to an audio reading of the text and discuss this with the teacher. Teachers then use the questions in the book provided to support the pupils with their understanding of the text and focus on retrieval questions. Pupils then complete the first part of the written activity from the book which is linked to the text they have heard. Following this, pupils listen to the audio recording a second time and then complete more advanced questions on the second part of the written activity. These often focus on inferences. Pupils then listen to the audio recording a third time and use this opportunity to discuss and check their answers with the adult.

Precision teaching

Precision teaching is a daily 1:1 intervention which takes place for up to 10 minutes. It is used to develop word recognition including reading and spelling and can also be used to support the recall of mathematical facts for example shape names and number facts. Pupils are assessed prior to starting the programme using the high frequency word lists and placement tests. Areas for development are identified and planned into these intervention sessions. The sessions comprise of a 5 minute teach which includes direct instruction and a variety of games to embed learning. This is followed by a one-minute probe to assess learning. The results are plotted on a chart with the pupil to show progress. The same probe is repeated until the aim rate achieved with a maximum of two errors on three consecutive occasions.

Behavioural, Emotional, Social and mental health

Social stories

Social stories are created by the class teacher and SENCO for individual pupils to support them with understanding school routines and expectations. These include photographs of routines and Communication in Print symbols which are used as visual cues. Social stories are used to support pupils with changes in routines including: at key transition points, for swimming lessons and prior to attending trips.

Communication in Print symbols

Communication in Print symbols are used as visual cues and reminders to support pupils with following day to day routines. Staff in EYFS and those working with pupils with special educational needs in KS1 and 2 have a set of these cards on a lanyard to use with pupils throughout the school day.

Visual timetables

Visual timetables are used in all classrooms to support pupils with understanding and following school routines. The symbols are uniform across school and are created using Communication in Print. Visual timetables are displayed at the front of each class. Once a lesson or activity has been completed it is removed from the visual timetable.

1:1 work using TEECH trays

Pupils who use this system are identified by the Educational Psychologist, Communication and Autism team and the school SENCO. Pupils have their own set of up to six draws which are numbered and have the pupils photograph on. Pupil's work is split up into manageable chunks and each section of work is placed in trays 1, 3 and 5. Break activities are placed in trays 2, 4 and 6. The break activities consist of fine motor activities, sensory activities or are based on a pupil's special interest. The activity in tray 6 develops the pupil's turn taking and social skills for example a turn taking game.

Individual learning spaces

Pupils who use this system are identified by the Educational Psychologist, Communication and Autism team and the school SENCO. The individual learning space allows pupils access to low arousal learning spaces in order for them to focus on their learning activities. Individual learning spaces are set up to meet the individual pupil's needs and have the required resources available at all times.

Now and next boards

Now and next boards are used to support pupils with understanding and following the routines of the school day and to support pupils with concentrating on learning activities for short periods of time. The symbols are uniform across school and are created using Communication in Print.

Regular sensory breaks

Regular sensory breaks are used for pupils who have been identified by the school SENCO as needing the additional support in class. Pupils use a timer, the length of which is agreed individually for each pupil. During a sensory break a pupil may require access to a low arousal environment and specialist resources which are personal to the pupil.

Emotion Coaching

Emotion coaching is used to support pupils with recognising and understanding their current emotional state. There are Four steps of emotion coaching which includes: Recognise the pupil's feelings; name the feeling or emotion; set limits if needed; and problem solve together. Emotion coaching is used by all staff to support pupils on a day to day basis.

Emotion cards

Emotion cards are used with pupils to support them with identifying feelings and emotions. Photographs of children displaying emotions are shown and pupils use these to aid discussions regarding different feelings and emotions they may be experiencing

Traffic light emotion charts

Traffic light emotion charts are used as visual cues for pupils who have been identified by the school SENCO as needing the additional support in class. These traffic light charts are displayed discretely in the classroom to support pupils with managing their emotions. Initially pupils are supported by a teacher to move their name when they are displaying

differing levels of emotion. As pupils become more self-aware of their emotions they use the traffic light chart independently to inform their class teacher of the changes in their emotions. This is used to allow the pupil to inform their teacher if and when they need support. The reasons for the change in emotion is discussed at a later point with the pupil.

Ear defenders

Ear defenders are used to support pupils to focus on their work and to manage their sensory needs in class. Ear defenders are available within the classroom for identified pupils to select to use themselves when needed.

Movement boards

Movement boards are used to support pupils to focus on their work and to manage their sensory needs in class. Movement boards are available within the classroom for identified pupils to select to use themselves when needed.

Whisper phones

Whisper phones are available to support pupils who are reluctant speakers. Pupils can whisper into the phone for they key adult to hear them. In addition, whisper phones are used by pupils to edit their writing. Whisper phones are available in all classes for pupils to use as and when they are required.

All of our teachers are trained to work with children with SEN. All staff have access to advice, information, resources and training to enable them to teach all children effectively. We offer training and self-help opportunities through access to bespoke in house CPD opportunities, provision of books or leaflets and guidance towards useful websites.

Staff are also given the opportunity to develop their skills by working with outside agencies for either individual, paired, year group, phase or whole school training opportunities.

10. Adaptations to the Learning environment

We aim to be as accessible as possible. Physical adaptations to the physical environment are made, as appropriate, to accommodate pupils with physical or sensory difficulties. We use the recommendations from agency professionals to modify learning spaces and resources.

The school has an accessibility plan;

<http://web.grove.bham.sch.uk/media/upload/files/Accessibility-Plan-autumn-2019.pdf>

Disability is defined by The Equality Act 2010 and is included in the Special Educational Needs Code of Practice, 2014 as:

'A physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities.'

At Grove school we aim to reduce, and where possible, eliminate barriers to accessing the curriculum and to full participation in the school community.

The school's Accessibility plan has been reviewed in October 2018 by Mark Checkley, Safety Adviser, Education Safety Services. Recommendations made have been implemented.

These include:

External areas of the school:

All external areas of the school are suitably accessed via ramps/flat surfaces offering all users adequate provision for access around the site.

However presently, the sand pit play area is not accessible to children with potentially mobility impairment issues (although no children at the school have such a physical condition presently). As & when required, would suggest the purchase & use of a temporary ramp for such access when required.

External access to the Main School Office:

Access to the office from outside is presently available by use of a step, located at the external door. This presently does not conform to the requirements of the Equality Act, 2010, as regards the provision of suitable access to all visitors to the school office. A temporary ramp would assist greatly here & would negate the need for any potential changes to this entrance, as this building is Grade 11 Listed.

Emergency Escape Route/Fire Exit – (Year 3 corridor):

Immediately outside of the Fire Exit double doors is a set of 3 steps leading down to the ground, which is not visible from the inside, but however, does have the potential for trips, as there is no prior warning of what is beyond the Fire Exit doors. Therefore, a suggestion is to display a sign suitably worded on or around these doors.

11. Access to extra- curricular activities

Pupils are not excluded from lunchtime clubs, after school clubs, representing the school at events, educational visits and residential visits due to their special educational needs. Where a child has a particular need staff will meet with parents to discuss and risk assess e.g a residential visit.

Pupils who are supported by a school behaviour card at yellow, green or purple level or who are supported by a Pastoral Support Plan will not be invited to attend educational visits or extra – curricular activities.

Access to public examinations and tests

The school makes appropriate and reasonable adjustments for those pupils with a need or disability; this includes application for additional time in tests and public examinations and ensuring those pupils with a need or disability have equal access to examinations and tests.

12. Partnership with external agencies

13. The Birmingham Local Offer

A link to the Birmingham Local Offer can be found on the school website.

https://www.birmingham.gov.uk/info/50034/birminghams_local_offer_send

14. Information for parents

Grove School Website

The Grove School Website has a page which includes advice and support for parents of children with special educational needs:

<http://web.grove.bham.sch.uk/support-for-parents-of-children-with-special-educational-needs-virtual-education>

SEN Assessment and Review Service

The Birmingham **Special Educational Needs & Disability Information, Advice and Support Service** (SENDIASS) offers [impartial information, advice and support](#) to children and young people with special educational needs or disabilities.

The service is impartial, confidential, and free. If you're a parent or young person being assessed, the service can:

- Help you to understand the referral process
- Act as a named contact throughout the process
- Help you to communicate with everyone involved in the assessment process
- Provide information about personal budgets
- Put you in touch with other people who can help, if necessary.

The SENDIASS team is available from 8:45am to 5pm, Monday to Friday.

Lancaster Circus,
PO Box 16289,
Birmingham,
B2 2XN

- Telephone: 0121 303 5004
- Email: sendiass@birmingham.gov.uk

Access to education for children with special educational needs

[Access to education](#) is made up of three specialist teams who work to support children and young people with additional education needs in Birmingham.

We work in homes and educational settings, putting children, young people and their families at the centre of everything we do.

We aim to enable participation, engagement, inclusion and equality of access.

The three areas are:

[Communication and Autism](#)

Specialist support to children and young people with an Autistic Spectrum Disorder.

[Pupil and School Support](#)

Helps children and young people with cognition and learning difficulties to progress and achieve to the best of their abilities.

[Sensory Support](#)

Enables successful educational achievement and social inclusion for children and young people with sensory impairment.

15. More information

Communication and Autism

We work closely with the Child Development centre and the Communication and Autism Team to help parents and families understand autism. Our key worker from the CAT team is always keen to support parents and can signpost to many helpful organisations.

Special educational needs code of practice

The new Special Educational Needs (SEN) Code of Practice published in June 2014 by the Department for Education and was implemented from September 2014. This was updated in April 2015 to include new requirements for supporting children and young people with SEN when they are detained in youth custody.

The code gives guidance to early education settings, schools, Post 16 providers, local authorities and anybody else who helps to identify, assess and provide help for children and young people with special educational

needs. It sets out the processes and procedures that all these organisations should follow to meet the needs of children and young people.

You can view the code of practice other useful documents below:

- [Special Educational Needs \(SEN\) Code of Practice](#)
- [Code of Practice guide for Schools](#)
- [Code of Practice guide for Further Education Providers](#)
- [Code of Practice guide for Social Care Professionals](#)

16. Admission arrangements for pupils with SEND

The governing body of Grove School applies the regulations on admissions fairly and equally to all those who wish to attend this school. The School Standards and Framework Act 1998 introduced a new framework for school admissions as of September 2000. The school's

admissions arrangements conforms to the regulations that are set out in that Act and also further explained in the statutory School Admissions Code of Practice and the statutory Appeals Code of Practice.

Aims and objectives

- We are an inclusive school and welcome children from all backgrounds and abilities.
- All applications will be treated on merit and in a sensitive manner.
- The only restriction we place on entry is that of number.
- Our pupil admission number (PAN) in each year group is 90.
- If the number of children applying for entry exceeds the places available, we enforce the procedure set out below in order to determine whether a child is accepted or not.

It is our wish to allow parents the right to have a place at the school of their choice. However, this is not always possible, due to the excess demand on the school places available.

Admission Criteria

1. Looked after or **previously looked after** children.
2. Siblings (brother or sister who will still be in attendance in September 2016).
3. **Distance** (children who live nearest the school measured in a straight line).
4. **Children with a statement of Educational needs (EHCP)**
5. Children with an Education Health and Care Plan (EHCP)/statement of special educational needs (SEN)

Any child with an Education, Health and Care Plan/ statement of special educational needs is required to be admitted to the school that is named in their plan/statement. This gives any such child overall priority for admission to the named school. This is not an oversubscription criterion.

This policy is reviewed on an annual basis.
