Year 1 Holiday Project May 2021

Animal Antics!

When we return after the half term break we will be going animal mad! We are going to become experts at animals and locate where they all live.

Your holiday project is to make a fact file for an animal of your choice. Find out what it looks like, what it likes to eat, where it lives and what is special or interesting about it.

You can choose how you present your fact file. You could either:

- Make a poster.
- Create a mask of your animal and write the facts next to it.
- Create a habitat (jungle, rainforest, arctic) for your animal out of recyclable materials.
- Create a non-fiction book

Please return your holiday project to your teacher on Monday 7th June
