

Year 1

Summer Holiday Project 2018

In year 2 we will be studying Living Things and their Habitats. For your holiday project, we would like you to choose one of the following tasks.

- Make a collection of items (including pictures or photographs) and sort into three groups – alive, never been alive, used to be alive.
- Can you make a poster of the things that your parents do to take care of you.
- Using a shoebox make a habitat for an animal and draw a picture of that animal to put inside. Does it have all it needs to survive?

Please return your project to school on Tuesday 4th September.
