

# Year 3 Holiday Project

## Easter 2018

Next half term we will be learning about differences in local areas as part of our geography topic.

Your holiday project is to find two places in our local area that are different and to think about some of the ways they are different.

You may want to compare your street with the Soho Road and think of all the ways they are different.

You could visit Handsworth Park or Sandwell Valley Nature Reserve with your family and think about how these two places are different.

Take photographs or draw pictures of what you see in the place you choose.

Present what you find as a poster showing the differences between the two places you choose. Include photographs or any drawings you have done.
