

Year 4 Holiday Project Easter 2018

Next term we will be studying climate zones.

Over the holiday
we would like you to
record the weather each day for 7 days.

Record whether it has been sunny, rainy or cloudy and what the temperature was for that day. You may find it useful to watch the weather on the news or use the internet to look at weather reports.

If you are going on holiday to another country, then you could make a record of the weather there and compare this to the weather in the UK.

Record your findings in the form of a poster or chart with symbols for the different types of weather you experience.

Please return your project to school on Monday 16th
April 2018.
