

# Geography – Year 3

## Autumn 1 – I am a meteorologist

In geography I have already learnt:

- To name and locate Birmingham on a map of the UK.
- To know where the UK is on a world map.
- To name and locate the 7 continents and 5 oceans of the world.
- To locate a country on all the continents (excluding Antarctica)
- To understand that a photo or video is a record of what has been seen or heard.
- To use comparative language.
- To understand that animals live in different habitats across the 7 continents.
- To talk about the different habitats using photos and videos.
- To use different scale maps and globe.
- To locate the Equator (hot), North and South Pole (cold) on a world map.
- To remember and name the four points of a compass.

labels, key, symbols, same, different, north, south, east, west, climate, Equator, South Pole, North Pole, sand, globe, hot, cold, wet, dry, sunny, rainy, showers

### Location knowledge

**I can name some countries in the continent of Europe.**

### Human and Physical knowledge

**I can talk about different climate zones** and compare their soil, vegetation and climates.

**I can describe how vegetation adapts to changes in different climates.**

### Fieldwork

**I can think about the impact of climate on settlements** and ask questions about the people living in them.

### Map Skills

**I can consider how photo's provide useful evidence and locate the position of a photo on a map.**

New geography words:

**evidence, compare, contrast**

humans, vegetation, canopy layer, undergrowth, deforestation, sand dunes, sand storms, desert, oasis, palm trees, drought, **adaptation**, latitude, longitude, climate change, **deforestation**
