

# Design and Technology – Year 3

## Autumn 1 – Design, make and evaluate a purse or bag for a fossil

In Design & Technology I have already learnt:

To do running stitch

To join fabrics using gluing, stapling and taping.

To thread a needle correctly and safely

The different parts of a needle

Design, make, evaluate, user, purpose, ideas, design criteria, product, Template, pattern pieces, mark out, mock up, join, decorate, sew, cross stitch, running stitch, felt, finishing – textile paints – glitter and raised, sequins, fabric, fabric crayons

I know that a single 2D shape can make a 3D shape product.

I can create a paper pattern and will **understand the need for a seam allowance**.

**I can do over sew stitch.** I can select the strongest joining technique for my product.

I can select from **a range of fastening techniques**.

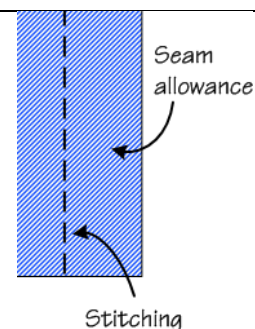

I can use applique as a decorative technique to finish my product.

New Design & Technology words:

**Over sew stitch, backwards running stitch, seam, seam allowance, fastening, compartment, applique**

*An over sew stitch*

*A labelled diagram of a seam allowance*
